

SITA Multi-Element Filters in stainless steel housing.

GEM Series

The industrial filters from S.I.T.A. propose a range of products able to satisfy the most particular requirements. Wholly manufactured in externally/internally polished stainless steel, means resistance to wear, mechanical stresses and avoids particles attaching. Being that all the parts are in contact with water and without porosity, gives particularly suitable treatment of primary waters.

HOUSING SIZES AVAILABLE: 1, 2, 5, 7, 9, 12, 17, 40, 80 Filters.

APPLICABLE CARTRIDGES: 30" & 40" - 1, 5 and 20 micron.

FLOW RATE: from civil to industrial users, according to the filtering degree requested.

MANIFOLD MATERIAL: int/ext polished stainless steel AISI 304

MAX. PRESSURE: 10 bar
